A LETTER FROM THE FOUNDER

Welcome From the Founder

Dear Cage Free Learning Partner,

Welcome to the Cage Free Voices Community where we help others, “See themselves, even if the world is blind.” Thank you for agreeing to be a part of the change that we so desperately seek in the world of education. Our primary goal is to provide excellent service and to catapult students in the direction of academic achievement. Online learning is growing rapidly, and we have found ways to integrate student interest, the performing arts, social and emotional learning and academics into a blended learning model. Our desire for your child is holistic development.

I developed this curriculum after working with inner-city and rural youth, teaching in adult education, and working at the university level for over 13+ years. **WELCOME TO THE PROCESS OF BECOMING CAGE FREE. IT’S TIME TO SEE YOURSELF, EVEN IF THE WORLD IS BLIND....AND HELP STUDENTS DO THE SAME!!!**

Sincerely,

Bathsheba Smithen

CEO & Founder, Cage Free Voices, LLC

Cage FreeVoices Online Tutoring is interest-based and personalized learning.

We believe it is important to provide culturally diverse content that is both rich and robust to encourage cultural competence, preparing your student as a 21st century learner. Embedded in our reading curriculum is information on African American History, US History, Latin American History, and more.

Content is presented through jingles alongside articles that provide more detailed information around the area of focus with questions to ensure acquisition of knowledge.

ABOUT CAGE FREE VOICES ONLINE LEARNING

CAGE FREE VOICES ONLINE LEARNING

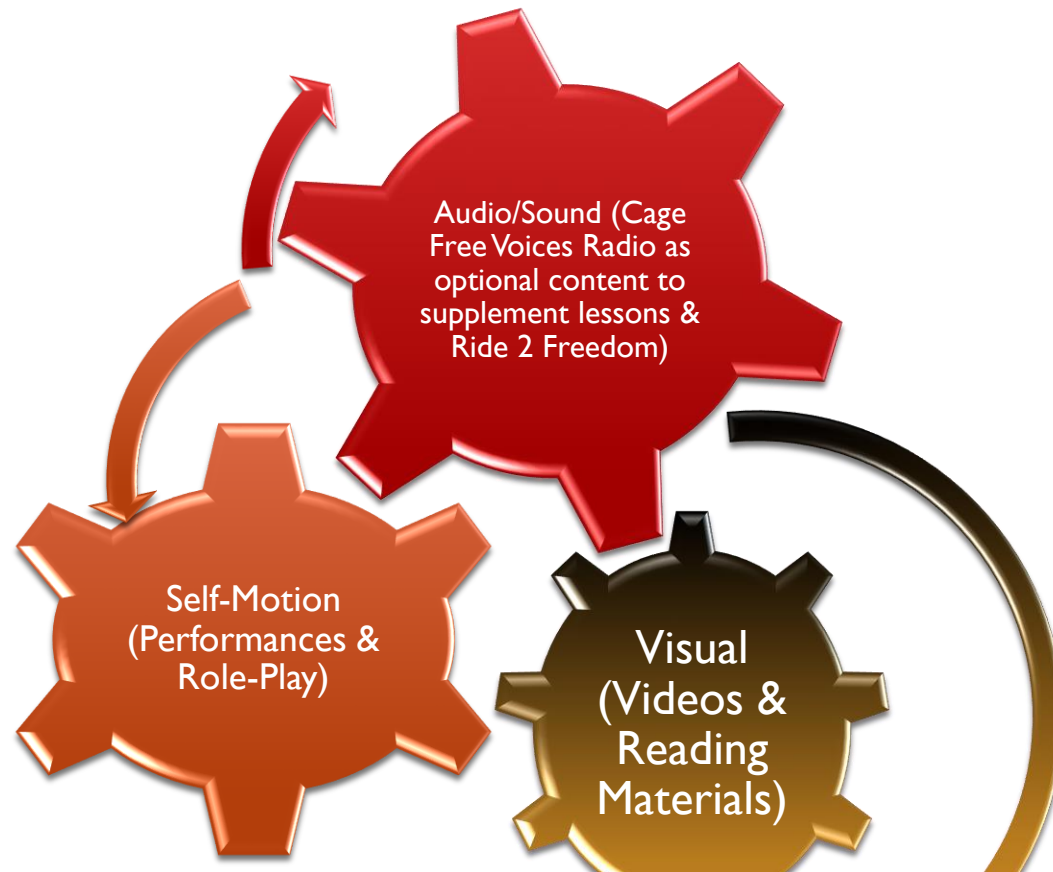

The Cage Free Voices Online Learning Platform provides one-on-one and group instruction, as well as, live chat.

CFV also provides games, radio, and courses in diverse subject areas, all in one place; making learning both personalized and interest based.

MULTI-SENSORY INSTRUCTION

- “Research shows that hands-on learning makes it easier for students to:
 - collect information,
 - make connections between new information and what they already know,
 - understand and work through problems and use nonverbal problem-solving skills.” (Understood.org)

SAMPLE DATA

A third grader reading on 6th grade reading level with a Lexile of 995L.

Student B attended CFV Tutoring once a week and in two months saw a 90pt. Lexile gain.

Student C has had the greatest increase in reading, he more than doubled his starting score of 130L, October 2, 2018 to 275L on December 12, 2018.

MORE DATA

One first grader went from DRA Level 3 to DRA Level 16 in three months.

Student D, a second grader, moved from Lexile 130L to 445L in three months.

We're even seeing improvements in standardized testing. One of our sixth graders started as a proficient reader and in three months, earned an advanced score on the SOL's.

CFV Reading - Best Friends Forever (101,800).pdf

keisha woke up late and therefore, missed her bus.

Let's examine Cause and Effect in the following story:

Keisha and Elena are best friends. They like to play outside together. Their moms spend a lot of time hanging out. Keisha and Elena talk on the phone every day. They just have one problem. Some of Elena's friends do not like Keisha. Whenever Keisha comes around, Elena's friends leave and no longer want to talk to Elena. Keisha feels sad every time Elena's friends come around. Elena loves her other friends, but she does not understand why they don't like her best friend. She feels caught in the middle but can't stand to see Keisha cry when they leave her out.

Keisha calls Elena's friend's bullies when she talks about them to Elena on the phone. Elena does not seem to think so, she just thinks they will one day see that Keisha is amazing! Elena frustrates Keisha when she speaks about her friends as if they are very nice people.

"They're not bullies, Keisha. They are not fighting or hitting anyone."

Keisha replied, "They're leaving me out. That's bullying! My father said that when people exclude you, they are bullies and I should not want to be friends with them anyway."

"You don't know them like I know them, Keisha. They are funny and kind. I don't know why they won't be friends with you. It's just stupid."

"I know why. Ummm...because they are bullies! I don't like them, and I have no idea why you do! This makes me so upset. Can we talk about something else," Keisha fired back over the phone.

"I get it. Okay. What do you plan on wearing to school tomorrow? How are you going to wear

CFV READING JINGLE- THIS IS MY DESTINY- CAGE FREE VOICES, LLC. © COPYRIGHT 2020 ALL RIGHTS RESERVED

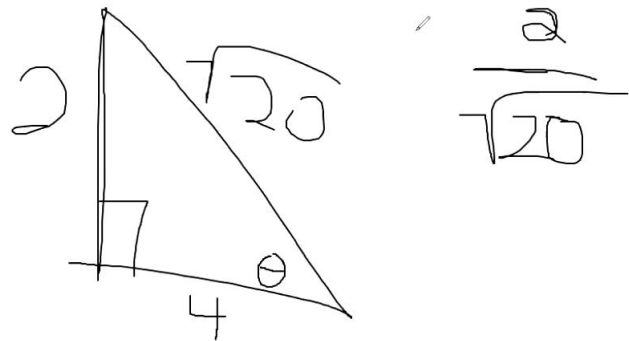

This Is My Destiny

They say I can't
But I can,
You know I am the man.
I am the girl, I rule the world.
A lady wearing her pearls....
I take my chance.
I do my dance
Steady making my plans
Cause I can be all, I'm created to be
I can be all I've been created to be...
This is my destiny,
Destiny.
Destiny.
This is my destiny.
Destiny.
Destiny.
(Repeat)

And ain't nobody gonna stop it

The Laws of Thermodynamics

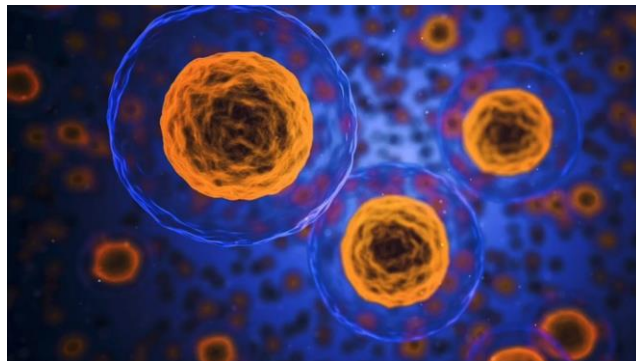

© Cage Free Voices

You can't create energy
Nor can you destroy it
The Law of Conservation says that thought's annoying
Energy can only change forms
Like electrical from lightning in a storm
Changes to light, heat and sound energy
Or when the sun transfers solar thermal heat
To the bodies of all living things

Second law has to do with entropy
Entropy? What is entropy?
Entropy? What is entropy?
What is entropy...the idea everything
In the universe...moves from order to disorder.
What is entropy...the idea everything
In the universe...moves from order to disorder.
It's that measure of change from order to disorder
It's that measure of change from order to disorder.

So we getting' back at it..
Second law has to do with it...
Thermodynamics says entropy of any isolated system always increases
Just like Reese's, it all goes to pieces...
Like BOOM! From a clean to a messy room!
Molecules in a liquid more orderly than gas
Water evaporates from condensation on a can
We go from order to disorder
