Guillermo González Camarena
He was flowing in his gift
Here's your subpoena
Will you come to the court as a king?
Or represent just like you queen?
As a young man,
He loved electrical toys
And by the age of 17
He was making noise
In the scientific community
pursuing his degree
He was working in his basement
Shapin', makin' a television camera
Guillermo is helping us...realize
We don't need to be adults to pursue
Our dreams,
From Black and white to color
Just Like he did for screens
Them movie clips that we see on Netflix
Are because of this, Mexican inventor
Who delivered at a young age
Worldwide front page in the 1960s
In his late forties
with Martin Luther King in the background
Civil rights had a trap sound in the US
He was doing his best in Mexico
Bringing you
color for history
Are you listening?
Them tv's went from black and white to color
All because of our Mexican brother, Guillermo!
